## Gravel Sales and Distribution

It is the policy of the County of Warner that a sale of gravel, pitrun or other aggregates to anyone, will not be permitted, except as per this policy.

### Guidelines

#### 1. Individual Gravel Requests

- a. Individual landowners are allowed to purchase a maximum of thirty (30) yards of gravel per year. This gravel must be spread only on a private lane or roadway.
- b. The delivery will be the responsibility of the Public Works Department and will be completed at the Superintendent's discretion.
- c. At the discretion of the Superintendent of Public Works, special consideration may be granted for gravel required for newly constructed private lanes or roadways.
- d. The cost of the gravel and delivery will be the responsibility of the landowner. The cost is determined as follows:
  - i. The cost per yard of gravel as established plus...
  - ii. The cost of the delivery based on the haul rate as established by government rate (yard per mile).
- e. Other local authorities may be given special consideration by the Municipal Committee if a request for gravel is made.
- f. Each land owner shall be required to sign a "Hold Harmless Agreement" before any county owned equipment can supply any services on the land owner's property.
- g. Where a school bus must use a private lane/road as a forced turnaround point because of a safety concern (to be determined by the County), the County will supply a maximum of 18 yards of gravel to be placed on the appropriate lane or road at the request of the land owner.
- h. Any County ratepayer who has requested gravel to be delivered and the County was unable to deliver it in the same year, may have that same gravel delivered in the following year and this shall not affect any other current entitlements.

**2. Public Gravel Loading Days**

- a. The Municipal Committee may authorize additional gravel to be crushed at approved gravel pits for possible future public sale.
- b. The Municipal Committee may approve a public gravel loading day in the fall of each year for use by county land owners.
- c. The Public Works Department shall be responsible for the loading of the gravel only and keeping the necessary records in order that the gravel can be billed to the appropriate land owner. The cost will be determined according to clause "1 (d) (i)" above.
- d. The public loading date shall be advertised in the local paper at least two weeks in advance of the actual day.
- e. Individual land owners are allowed to purchase a maximum of 30 yards of gravel during the public gravel loading day.
- f. Multi-family establishments are allowed to purchase gravel in excess of 30 yards to a maximum of 90 yards.
- g. Gravel purchased from the County is for the use of the individual land owner and is not for resale to other parties.
